Mr Mervyn Gunasekera
LAN Management Development Service
3rd Floor, 91, Galle Road
Colombo 4.

Dear Mervyn,

Following the visit to Lindel our Chairman Mr Wölfer has expressed his appreciation of the progress made and I think, the quality of thought and work that have gone into it.

I am fully aware of your own contribution towards the project and to make the visit a success and wish to thank you most sincerely.

May I also ask you to convey our thanks and appreciation to all others involved in your Company, the Architects and the Contractors especially Mr Dahanayake, who have been involved on this project.

I realise our meetings have not been easy but it does appear that through challenging each other to arrive at decisions and then to agree the details on how best to get the work done have certainly helped to avoid unnecessary debate and procrastination once decisions are made.

There is lot more work yet to be accomplished and I hope you share my confidence that we will maintain the same team spirit, commitment and professionalism in the future.

With kind regards.

Yours sincerely,

[Dr] I A Ismail
Vice-Chairman
